Terms & Conditions

1. How your Policy works

1.1 When your coverage begins

Your coverage will begin at 12:01 a.m. Standard Time at your address on the later of:

1. the Effective Date shown on the coverage details page of the in-force Policy;
2. the date your identification is verified;
3. the date we receive payment for your first premium; or
4. the date you receive an email notification from the Administrator confirming that your coverage has been reviewed, is complete, and that your coverage has begun and is in force.

1.2 When your coverage ends

Your coverage terminates at 12:01 a.m. Standard Time at your address on the earlier of:

1. the business day we receive your request to cancel the coverage through a submitted Cancellation Request Form;
2. the day you receive the Critical Illness Benefit payout from this Policy, excluding any Early Condition Benefit payout;
3. the date of death of the Policyholder for this Policy;
4. 30 days after your Policy enters the grace period, if you have not paid the overdue premium amount in full by the end of the grace period;
5. as described under Section 2.2 – *Contestability*, if applicable; or
6. the Expiration Date shown on your coverage details page. If the Waiting Period for a Critical Illness Benefit or Early Condition Benefit has begun, but has not yet been completed at that time, then your coverage will expire as described below:
    - If the Waiting Period is subsequently fully completed, we will pay that Critical Illness Benefit or Early Condition Benefit for that coverage, subject to all the terms of this policy. The coverage expires on the date that Critical Illness Benefit or Early Condition Benefit becomes payable for that coverage; or
    - If the Waiting Period is not subsequently fully completed, we will not pay that Critical Illness Benefit or Early Condition Benefit for that coverage. The coverage expires on the first day that the Policyholder no longer meets the definition of Waiting Period as defined in Section 3.

We will not pay any other Critical Illness Benefit or Early Condition Benefit for that coverage other than that Critical Illness Benefit or Early Condition Benefit, if payable.

1.3 Coverage details

Critical Illness Benefit

This Policy provides critical illness coverage with level premiums guaranteed to not increase for the term length of your Policy.

If you are diagnosed with or have surgery for any of the Covered Critical Illness Conditions listed in Section 1.4 while this Policy is in force and have satisfied the Waiting Period for that Covered Critical Illness Condition, we will pay you the Critical Illness Benefit, subject to all the terms of this Policy. The Critical Illness Benefit is equal to the Policy Coverage Amount listed on the coverage details page.

You may keep this Policy in force until the Expiration Date. Prior to that time, other than as provided in this Policy or under governing law, we will not:

1. cancel your Policy;
2. place any restriction on your coverage while your Policy is in force; or
3. refuse a premium paid on or before the due date or within the grace period.

This Policy is non-participating, which means you will not receive dividends or other participation in a distribution of surplus or profits from it.

Only one Critical Illness Benefit is available for this Policy.

Early Condition Benefit

This benefit can help by providing partial coverage for conditions that have been diagnosed at an early stage.

If you are diagnosed with any of the Covered Early Conditions listed in Section 1.5 while this Policy is in force and have satisfied the Waiting Period for the Covered Early Condition, we will pay you the Early Condition Benefit, subject to all the terms of this Policy. We will not pay you the Early Condition Benefit if you meet all the requirements for a Critical Illness Benefit.

The Early Condition Benefit amount is equal to 15% of your Policy Coverage Amount for all Covered Early Conditions, up to a maximum of $50,000 for this Policy, except for both ablation surgeries (Carcinoma In-Situ (CIS) of the Breast Treated with Total Mastectomy and Early-Stage Prostate Cancer Treated with Radical Prostatectomy).

There are two Covered Early Conditions that are ablation surgeries. The Early Condition Benefit for both ablation surgeries (Carcinoma In-Situ (CIS) of the Breast Treated with Total Mastectomy and Early-Stage Prostate Cancer Treated with Radical Prostatectomy) is equal to 30% of your Policy Coverage Amount, up to a maximum of $100,000 for this Policy, minus any prior Early Condition Benefit paid or pending for an Early-Stage Breast Cancer or an Early-Stage Prostate Cancer.

Only one Early Condition Benefit is available per Covered Early Condition. Up to four Early Condition Benefits are available for this Policy. Payment of the Early Condition Benefit **does not reduce the Critical Illness Benefit** amount.

Limits for Early-Stage Breast Cancer and Early-Stage Prostate Cancer

There are two Covered Early Conditions for **Early-Stage Breast Cancer** under your Policy. The combined Early Condition Benefit for these two (Early-Stage Breast Cancer and Carcinoma in-Situ (CIS) of the Breast Treated with Total Mastectomy) shall not exceed 30% of your Policy Coverage Amount, up to a maximum of $100,000 for the lifetime of this Policy.

There are two Covered Early Conditions for **Early-Stage Prostate Cancer** under your Policy. The combined Early Condition Benefit for these two (Early-Stage Prostate Cancer and Early-Stage Prostate Cancer Treated with Radical Prostatectomy) shall not exceed 30% of your Policy Coverage Amount, up to a maximum of $100,000 for the lifetime of this Policy.

1.4 Covered Critical Illness Conditions

Acquired Brain Injury

Definition

A definite diagnosis of new damage to brain tissue caused by traumatic head injury, resulting in a newly developed significant Neurological Deficit (defined in Section 3 – *Definitions*) that:

- Results from an external trauma severe enough to have prompted the Policyholder to seek a medical consultation in less than a week after the occurrence of the trauma;
- Is present and verifiable on clinical examination;
- Is corroborated by abnormal magnetic resonance (MR) and/or computed tomography (CT) brain imaging studies, that confirm brain trauma; and
- Persists for more than 180 consecutive days following the date of diagnosis.

The diagnosis of Acquired Brain Injury must be made by a Specialist.

Waiting Period

Until the criteria outlined above for this condition have been met.

Exclusions

We will not pay the Critical Illness Benefit for this condition for:

- An abnormality seen on imaging studies of the brain without corresponding clinical impairment;
- Neurological deficit without corresponding imaging study lesions; and
- A concussion that does not have abnormal imaging studies.

Aortic Surgery

Definition
The undergoing of surgery for disease of the aorta requiring excision and surgical replacement of any part of the diseased aorta with a graft. Aorta means the thoracic and abdominal aorta but not its branches.

The surgery must be determined to be medically necessary by a Specialist.

Waiting Period
30 days following the date of surgery.

Exclusions
We will not pay a Critical Illness Benefit under this condition for:

- Angioplasty (this is a Covered Early Condition);
- Intra-arterial procedures;
- Percutaneous trans-catheter procedures; or
- Non-surgical procedures.

Aplastic Anaemia

Definition
Aplastic Anaemia is defined as a definite diagnosis of a chronic persistent bone marrow failure, confirmed by biopsy, which results in anaemia, neutropenia and thrombocytopenia requiring blood product transfusion, and treatment with at least one of the following:

- Marrow stimulating agents;
- Immunosuppressive agents; or
- Bone marrow transplantation.

The diagnosis of Aplastic Anaemia must be made by a Specialist.

Waiting Period
There is no Waiting Period for this condition.

Exclusions
None

Bacterial Meningitis

Definition
A definite diagnosis of meningitis, confirmed by cerebrospinal fluid showing the presence of pathogenic bacteria. The presence of pathogenic bacteria must be confirmed by culture or other generally medically accepted microbiological testing. The Bacterial Meningitis must result in objective Neurological Deficits persisting for at least 90 days from the date of diagnosis.

The diagnosis of Bacterial Meningitis must be made by a Specialist.

Waiting Period
Until the criteria outlined above for this condition have been met.

Exclusions
We will not pay a Critical Illness Benefit under this condition for viral meningitis.

Benign Brain Tumour

Definition
A definite diagnosis of a non-malignant tumour located in the cranial vault and limited to the brain, meninges, cranial nerves or pituitary gland. The tumour must require surgical or radiation treatment or cause irreversible objective Neurological Deficit(s).

These deficits must be corroborated by diagnostic imaging showing changes that are consistent in character, location, and timing with the Neurological Deficit(s).

The diagnosis of a Benign Brain Tumour must be made by a Specialist.

Waiting Period
There is no Waiting Period for this condition.

Exclusions
Please see Section 1.6 for terms that apply to all cancer-related conditions covered under this Policy.

We will not pay a Critical Illness Benefit under this condition for:

- Pituitary adenomas less than 10 mm;
- Vascular malformations;
- Cholesteatomas; or
- Infectious or inflammatory tumours.

Blindness

Definition
A definite diagnosis of the total and irreversible loss of vision in both eyes, evidenced by:

- The corrected visual acuity being 20/200 or less in both eyes; or
- The field of vision being less than 20 degrees in both eyes.

The diagnosis of Blindness must be made by a Specialist.

Waiting Period
There is no Waiting Period for this condition.

Exclusions
None

Cancer of Specified Severity

Definition
A definite diagnosis of a malignant tumour as evidenced by the uncontrolled growth and spread of malignant cells and the invasion of tissue. The term cancer includes carcinoma, melanoma, leukemia, non-cutaneous lymphoma, and non-cutaneous sarcoma.

The diagnosis of cancer must be made by a Specialist and must be confirmed by a final pathology report.

Waiting Period
There is no Waiting Period for this condition.

Exclusions
Please see Section 1.6 for terms that apply to all cancer-related conditions covered under this Policy.

No Critical Illness Benefit will be payable under this condition for the following:

- Lesions described as benign, non-invasive, pre-malignant, of low and/or uncertain malignant potential, borderline, carcinoma in-situ, or tumours classified as Tis or Ta;
- All grades of dysplasia, all grades of squamous intraepithelial lesions (HSIL and LSIL), and all grades of intra-epithelial neoplasia;
- Malignant melanoma of skin that is less than or equal to 1.0 mm in thickness, unless it is ulcerated or is accompanied by lymph node or distant metastasis;
- All ocular (uveal) melanomas confined to the eye unless treatment with resective surgery, brachytherapy, external beam radiotherapy, chemotherapy, or targeted systemic therapy has been undertaken;
- Any non-melanoma skin cancer, without lymph node or distant metastasis. This includes but is not limited to, cutaneous lymphoma, dermatofibrosarcoma, basal cell carcinoma, squamous cell carcinoma or Merkel

cell carcinoma, all of which are confined to the skin (which includes the epidermis, dermis and hypodermis/subcutaneous tissue);

- Prostate cancer classified as T1a or T1b, without lymph node or distant metastasis;
- Papillary thyroid cancer or follicular thyroid cancer, or both, that is less than or equal to 2.0 cm in greatest diameter and classified as T1, without lymph node or distant metastasis;
- All bone marrow malignancies and non-cutaneous lymphomas (including, but not limited to, leukemia, myeloproliferative neoplasms, essential thrombocythemia, primary myelofibrosis, polycythemia vera, and myelodysplastic syndrome), unless the bone marrow malignancy or non-cutaneous lymphoma requires treatment with systemic chemotherapy, targeted cancer therapies, bone marrow transplant or hematopoietic stem cell transplant, or a permanent reliance on blood product replacement or therapeutic phlebotomies;
- All neuroendocrine tumours (including carcinoid tumours) and gastrointestinal stromal tumors that are AJCC prognostic Stage I or less;
- Thymomas (stage 1) confined to the thymus, without evidence of invasion into the capsule or spread beyond the thymus; or
- All cancers only identified from tumour cells, genetic material, or any other biomarkers, any of which may be present in the blood, saliva, urine, or other bodily fluids, including, but not limited to, tests known as "liquid biopsies".

For the purposes of this Policy:

- T1a or T1b prostate cancer means a clinically inapparent tumour that was not palpable on digital rectal examination and was incidentally found in resected prostatic tissue;
- The terms Tis, Ta, T1a, T1b, T1, Stage 1 and AJCC prognostic Stage 1 are as defined in the American Joint Committee on Cancer (AJCC) Staging Manual, 8th Edition, 2018; and
- The term Rai stage 0 is as defined in KR Rai, A Sawitsky, EP Cronkite, AD Chanana, RN Levy and BS Pasternack: Clinical staging of chronic lymphocytic leukemia. Blood 46:219, 1975.

Cardiomyopathy

Definition

A definite diagnosis of a non-alcohol related dilated, ischemic, hypertrophic and restrictive forms of cardiomyopathy. Cardiac imaging must show permanent left ventricular dysfunction as evidenced by one of the following:

- Left ventricular ejection fraction of ≤35%;
- Severe Grade III restrictive left ventricular diastolic dysfunction; or

- Heart failure due to one of the above forms of cardiomyopathy which has required cardiac resynchronization therapy (CRT) upon the advice of an accredited electrophysiologist. CRT refers to biventricular pacing for the purposes of resynchronizing cardiac contractility in heart failure. This criterion does not apply to devices deployed purely for the treatment of electrical conduction system disease of the heart.

The Cardiomyopathy must result in permanent functional impairment to at least Class III of the New York Heart Association (NYHA) Classification which has persisted for at least six months while on optimal therapy. NYHA Class III means the Policyholder has marked limitation of physical activity and less than ordinary activity such as walking across a room causes fatigue, rapid/irregular heartbeat (palpitations) or shortness of breath (dyspnea).

The diagnosis of a Cardiomyopathy must be made by a Specialist.

Waiting Period
Until the criteria outlined above for this condition have been met.

Exclusions
We will not pay a Critical Illness Benefit under this condition for any form of Cardiomyopathy that is caused directly or indirectly by alcohol use.

Coma

Definition
A definite diagnosis of a state of unconsciousness, with no reaction to external stimuli or response to internal needs for a continuous period of at least 96 hours, and for which period the Glasgow Coma Score must be 4 or less.

The diagnosis must be made by a Specialist.

Waiting Period
Until the criteria outlined above for this condition have been met.

Exclusions

We will not pay a Critical Illness Benefit for the following conditions:

- A medically induced coma;
- A coma which results directly from alcohol or drug use; or
- A diagnosis of brain death.

Coronary Artery Bypass Surgery

Definition
The undergoing of heart surgery to correct narrowing or blockage of one or more coronary arteries with bypass graft(s).

The surgery must be determined to be medically necessary by a Specialist.

Waiting Period
30 days following the date of your surgery.

Exclusions
We will not pay a Critical Illness Benefit under this condition for:

- Angioplasty (this is a Covered Early Condition);
- Intra-arterial procedures;
- Percutaneous trans-catheter procedures; or
- Non-surgical procedures.

Deafness

Definition
A definite diagnosis of the total and irreversible loss of hearing in both ears, with an auditory threshold of 90 decibels or greater within the speech threshold of 500 to 3,000 hertz.

The diagnosis of Deafness must be made by a Specialist.

Waiting Period
There is no Waiting Period for this condition.

Exclusions
None

Dementia, including Alzheimer's Disease

Definition
A definite diagnosis of Dementia characterized by a progressive deterioration of memory and at least one of the following areas of cognitive function:

- Aphasia (a disorder of speech);

- Apraxia (difficulty performing familiar tasks);
- Agnosia (difficulty recognizing objects); or
- Disturbance in executive functioning (e.g. inability to think abstractly and to plan, initiate, sequence, monitor, and stop complex behaviour), which is affecting daily life.

The Policyholder must exhibit:

- Dementia of at least moderate severity, which must be evidenced by a Mini Mental State exam of 20/30 or less, or equivalent score on another generally medically accepted test or tests of cognitive function; and
- Evidence of progressive worsening in cognitive and daily functioning either by serial cognitive tests or by history over at least a six-month period.

For purposes of this Policy, reference to the Mini Mental State exam is to Folstein MF, Folstein SE, McHugh PR, J Psychiatr Res 1975;12(3):189.

The diagnosis of Dementia must be made by a Specialist.

Waiting Period
Until the criteria outlined above for this condition have been met.

Exclusions
We will not pay a Critical Illness Benefit under this condition for affective or schizophrenic disorders, or delirium.

Heart Attack

Definition
A rise and fall of biochemical cardiac markers to levels considered diagnostic of myocardial infarction, with at least one of the following:

- Heart attack symptoms;
- New electrocardiogram (ECG) changes consistent with a heart attack; or
- Development of new pathological Q waves on ECG following an intra-arterial cardiac procedure including, but not limited to, coronary angiography and/or coronary angioplasty.

The diagnosis of Heart Attack must be made by a Specialist.

Waiting Period
30 days following the date the condition was diagnosed.

Exclusions
We will not pay a Critical Illness Benefit under this condition for:

- ECG changes suggestive of a prior myocardial infarction;
- Other acute coronary syndromes, including angina pectoris and unstable angina; or
- Elevated cardiac biomarkers and/or symptoms that are due to medical procedures or diagnoses other than heart attack.

Heart Valve Replacement or Repair

Definition
The undergoing of surgery to replace any heart valve with either a natural or mechanical valve, or to repair heart valve defects or abnormalities.

The surgery must be determined to be medically necessary by a Specialist.

Waiting Period
30 days following the date of surgery.

Exclusions
We will not pay a Critical Illness Benefit under this condition for:

- Angioplasty (this is covered as an Covered Early Condition);
- Intra-arterial procedures;
- Percutaneous trans-catheter procedures; or
- Non-surgical procedures.

Kidney Failure

Definition
A definite diagnosis of chronic irreversible failure of both kidneys to function, as a result of which regular hemodialysis, peritoneal dialysis or renal transplantation is initiated.

The diagnosis of Kidney Failure must be made by a Specialist.

Waiting Period
There is no Waiting Period for this condition.

Exclusions
None

Loss of Independent Existence

Definition
A definite diagnosis of the total inability, due to disease or injury, to perform independently:

- With or without the aid of assistive devices;
- At least 3 of 6 Activities of Daily Living (ADL) listed below;
- For a continuous period of at least 90 days;

- With no reasonable chance of recovery; and
- The diagnosis must be made by a physician and supported by an independent home care assessment made by an occupational therapist or equivalent.

Activities of Daily Living are:

- Bathing – the ability to wash oneself in a bathtub, shower or by sponge bath;
- Dressing – the ability to put on and remove necessary clothing, braces, artificial limbs or other surgical appliances;
- Toileting – the ability to get on and off the toilet and maintain personal hygiene;
- Bladder and Bowel Continence – the ability to manage bowel and bladder function with or without protective undergarments or surgical appliances so that hygiene is maintained;
- Transferring – the ability to move in and out of a bed, chair or wheelchair; and
- Feeding – the ability to consume food or drink that already has been prepared and made available.

Waiting Period
Until the criteria outlined above for this condition have been met.

Exclusions
None

Loss of Limbs

Definition
A definite diagnosis of the complete severance of two or more limbs at or above the wrist or ankle joint as the result of an accident or medically required amputation.

The diagnosis of Loss of Limbs must be made by a Specialist.

Waiting Period
There is no Waiting Period for this condition.

Exclusions
None

Loss of Speech

Definition
A definite diagnosis of the total and irreversible loss of the ability to speak as the result of physical injury or disease, for a period of at least 180 days.

The diagnosis of Loss of Speech must be made by a Specialist.

Waiting Period
Until the criteria outlined above for this condition have been met.

Exclusions
We will not pay a Critical Illness Benefit under this condition for any psychiatric-related cause.

Major Organ Failure (on Waiting List)

Definition
A definite diagnosis of the irreversible failure of the heart, both lungs, liver, both kidneys or bone marrow, and transplantation must be medically necessary. To qualify under Major Organ Failure (on Waiting List), the Policyholder must become enrolled as the recipient in a recognized transplant centre in Canada or the United States that performs the required form of transplant surgery.

The diagnosis of the Major Organ Failure must be made by a Specialist.

Waiting Period
There is no Waiting Period for this condition.

Exclusions
None

Major Organ Transplant

Definition
A definite diagnosis of the irreversible failure of the heart, both lungs, liver, both kidneys or bone marrow, and transplantation must be medically necessary. To qualify under Major Organ Transplant, the Policyholder must undergo a transplantation procedure as the recipient of a heart, lung, liver, kidney or bone marrow and limited to these entities.

The diagnosis of the major organ failure must be made by a Specialist.

Waiting Period
There is no Waiting Period for this condition.

Exclusions
None

Motor Neuron Disease (including ALS)

Definition
A definite diagnosis of one of the following:

- Amyotrophic lateral sclerosis (ALS or Lou Gehrig's disease);
- Primary lateral sclerosis;
- Progressive spinal muscular atrophy;
- Progressive bulbar palsy; or
- Pseudo bulbar palsy.

The diagnosis of Motor Neuron Disease must be made by a Specialist.

Waiting Period
There is no Waiting Period for this condition.

Exclusions
None

Multiple Sclerosis

Definition
A definite diagnosis of at least one of the following occurring after the later of the Effective Date, or the most recent Effective Date of Reinstatement Policy:

- Two or more separate clinical attacks, confirmed by at least one magnetic resonance imaging (MRI) of the nervous system, showing multiple lesions of demyelination;
- A single attack, with objective Neurological Deficits lasting more than 6 months, confirmed by MRI of the nervous system, showing multiple lesions of demyelination; or
- A single attack, confirmed by repeated MRI of the nervous system, which shows multiple lesions of demyelination which have developed at intervals at least one month apart.

The diagnosis of Multiple Sclerosis must be made by a Specialist.

Waiting Period
Until the criteria outlined above for this condition have been met.

Exclusions
We will not pay a Critical Illness Benefit under this condition for the following:

- Solitary sclerosis;
- Clinically isolated syndrome;
- Radiologically isolated syndrome;

- Neuromyelitis optica spectrum disorders; or
- Suspected multiple sclerosis or probable multiple sclerosis.

1-year exclusion:

We will not pay a Critical Illness Benefit under this condition if, within the first year of the later of: (i) the Effective Date; and (ii) the most recent Effective Date of Reinstatement, the Policyholder has any of the following:

- Signs, symptoms or investigations leading directly or indirectly to a diagnosis of multiple sclerosis (covered or not covered under the Policy), regardless of when the diagnosis is made; or
- A diagnosis of multiple sclerosis (covered or not covered under the Policy).

Medical information about the diagnosis and any signs, symptoms or investigations leading to the diagnosis must be reported to us within six months of the date of the diagnosis. If this information is not provided within this period, we have the right to deny any claim for Multiple Sclerosis or any critical illness caused by multiple sclerosis or its treatment.

Occupational HIV Infection

Definition

A definite diagnosis of infection with human immunodeficiency virus (HIV) resulting from accidental injury during the course of the Policyholder's normal occupation, which exposed the Policyholder to HIV contaminated body fluids. The accidental injury leading to the infection must have occurred after the later of:

- The Effective Date; or
- The most recent Effective Date of Reinstatement.

Payment under this Covered Critical Illness Condition requires satisfaction of the following:

- The accidental injury must be reported to us within 14 days of the accidental injury;
- A serum HIV test must be taken within 14 days of the accidental injury and the result must be negative;
- A serum HIV test must be taken between 90 days and 180 days after the accidental injury and the result must be positive;
- All HIV tests must be performed by a duly licensed laboratory in Canada or the United States; and
- The accidental injury must have been reported, investigated, and documented in accordance with current workplace guidelines in Canada or the United States.

The diagnosis of Occupational HIV Infection must be made by a Specialist.

Waiting Period

Until the criteria outlined above for this condition have been met.

Exclusions

We will not pay a Critical Illness Benefit under this condition if:

- The Policyholder has elected not to take any available licensed vaccine offering protection against HIV;

- A licensed cure for HIV infection has become publicly available prior to the accidental injury; or
- HIV infection has occurred as a result of non-accidental injury including, but not limited to, sexual transmission and intravenous (IV) drug use.

Paralysis

Definition
A definite diagnosis of the total loss of muscle function of two or more limbs as a result of injury or disease to the nerve supply of those limbs, for a period of at least 90 days following the precipitating event.

The diagnosis of Paralysis must be made by a Specialist.

Waiting Period
Until the criteria outlined above for this condition have been met.

Exclusions
None

Parkinson's Disease and Specified Atypical Parkinsonian Disorders

Definition
A definite diagnosis of primary Parkinson's Disease, a permanent neurologic condition which must be characterized by bradykinesia (slowness of movement) and at least one of muscle rigidity; or rest tremor.

The Policyholder must exhibit objective signs of progressive deterioration in function for at least one year, for which the treating neurologist has recommended dopaminergic medication or other generally medically accepted equivalent treatment for Parkinson's Disease.

Specified Atypical Parkinsonian Disorders are defined as a definite diagnosis of progressive supranuclear palsy, corticobasal degeneration, or multiple system atrophy.

The diagnosis of Parkinson's Disease or a Specified Atypical Parkinsonian Disorder must be made by a neurologist.

Waiting Period
Until the criteria outlined above for this condition have been met.

Exclusions
We will not pay a Critical Illness Benefit under this condition for any other types of Parkinsonism.

1-year exclusion:

We will not pay a Critical Illness Benefit under this condition if, within the first year following the later of: (i) the Effective Date; and (ii) the most recent Effective Date of Reinstatement, the Policyholder has any of the following:

- Signs, symptoms or investigations leading directly or indirectly to a diagnosis of Parkinson's Disease, a Specified Atypical Parkinsonian Disorder or any other type of parkinsonism, regardless of when the diagnosis is made; or
- A diagnosis of Parkinson's Disease, or a Specified Atypical Parkinsonian Disorder or any other type of parkinsonism.

Medical information about the diagnosis and any signs, symptoms or investigations leading to the diagnosis must be reported to us within six months of the date of the diagnosis. If this information is not provided within this period, we have the right to deny any claim for Parkinson's Disease or Specified Atypical Parkinsonian Disorders or any critical illness caused by Parkinson's Disease or Specified Atypical Parkinsonian Disorders or its treatment.

Severe Burns

Definition
A definite diagnosis of third-degree burns over at least 20 percent of the body surface.

The diagnosis of Severe Burns must be made by a Specialist.

Waiting Period
There is no Waiting Period for this condition.

Exclusions
None

Stroke (cerebrovascular accident resulting in persistent neurological deficits)

Definition
A definite diagnosis of an acute cerebrovascular event caused by intra-cranial thrombosis or hemorrhage, or embolism, with:

- Acute onset of new neurological symptoms; and
- New objective Neurological Deficits on clinical examination,

persisting continuously for more than 30 days following the date of diagnosis. These new symptoms and deficits must be corroborated by diagnostic imaging testing showing changes that are consistent in character, location and timing with the new Neurological Deficits.

The diagnosis of Stroke must be made by a Specialist.

Waiting Period
Until the criteria outlined above for this condition have been met.

Exclusions
We will not pay a Critical Illness Benefit under this condition for:

- Transient Ischemic Attacks;
- Intracerebral vascular events due to trauma;
- Ischaemic disorders of the vestibular system;
- Death of tissue of the optic nerve or retina without total loss of vision of that eye; or
- Lacunar infarcts which do not meet the definition of stroke as described above

1.5 Covered Early Conditions

Aortic Aneurysm (of specified severity)

Definition
A definite diagnosis of aortic aneurysm, where the aorta is enlarged to at least 55 mm in diameter for males or 50 mm for females.

For the purposes of this definition, "aorta" means the thoracic and abdominal aorta, but not its branches.

The diagnosis of aortic aneurysm must be evidenced by appropriate imaging technique and confirmed by a Specialist.

Waiting Period
30 days after the date of diagnosis.

Exclusions
None

Carcinoma In-Situ (non-invasive cancer)

Definition
Carcinoma in-Situ is defined as any tumour histologically confirmed to be a carcinoma in-situ (superficial cancer which has not invaded the organ of origin) and that is classified as (Tis).

The diagnosis of cancer must be made by a Specialist and must be confirmed by a final pathology report.

Waiting Period
There is no Waiting Period for this condition.

Exclusions
Please see Section 1.6 for terms that apply to all cancer-related conditions covered under this Policy.

No benefit will be payable under this condition for:

- All tumours which are histologically described as benign, pre-malignant; borderline malignant, low malignant potential; all grades of dysplasia, all grades of squamous intraepithelial lesions (HSIL and LSIL), and all grades of intra-epithelial neoplasia unless considered to be Tis;
- Carcinoma in-situ of the skin;
- Melanoma in-situ;
- Ductal Carcinoma in-Situ of the Breast or Lobular Carcinoma in-Situ of the Breast (covered elsewhere);
- Stage TaN0M0 papillary urothelial carcinoma of the bladder; or

- All cancers only identified from tumour cells, pieces of DNA, or any other biomarkers, any of which may be present in the blood, saliva, urine, or other bodily fluids, including, but not limited to, tests known as "liquid biopsies".

For the purposes of this exclusion, the terms "Tis and carcinoma in-situ as per AJCC classification" are to be applied as defined in the American Joint Committee on Cancer (AJCC) Staging Manual, 8th Edition, 2018.

Carcinoma In-Situ (CIS) of the Breast Treated with Total Mastectomy

Definition
The actual undergoing of a mastectomy to totally remove one or both breast(s) due to a diagnosis of carcinoma in-situ of the breast (CIS).

The surgery must be considered medically necessary, be supported by appropriate pathology reports and performed by a Specialist.

Waiting Period
There is no Waiting Period for this condition.

Exclusions
Please see Section 1.6 for general conditions that apply to all cancer conditions covered under this Policy.

No Early Condition Benefit will be payable under this condition for Carcinoma In-Situ (CIS) of the breast treated by any other means other than total mastectomy.

Chronic Lymphocytic Leukemia - Stage 0

Definition
A definite diagnosis of Chronic Lymphocytic Leukemia Rai stage 0.

The diagnosis of Chronic Lymphocytic Leukemia Rai stage 0 must be confirmed by blood tests or other clinically approved diagnostic tests and made by a Specialist.

For the purposes of this definition, the term "Rai stage 0" is to be applied as set out in KR Rai, A Sawitsky, EP Conkite, AD Chanana, RN Levy and BS Pasternack: Clinical staging of chronic lymphocytic leukemia. Blood 46:219, 1975.

Waiting Period
There is no Waiting Period for this condition.

Exclusions
Please see Section 1.6 for terms that apply to all cancer-related conditions covered under this Policy.

Coronary Angioplasty

Definition
The undergoing of any interventional procedure to widen a narrowed or obstructed coronary artery which supplies blood to the heart.

The procedure must be considered medically necessary and performed by a Specialist.

Waiting Period
30 days following the date of your surgery.

Exclusions
None

Dermatofibrosarcoma

Definition
A definite diagnosis of Dermatofibrosarcoma which is confined to the skin (which includes the epidermis, dermis and hypodermis/subcutaneous tissue), without lymph node or distant metastasis.

The diagnosis of Dermatofibrosarcoma must be made by a Specialist and must be confirmed by a final pathology report.

Waiting Period
There is no Waiting Period for this condition.

Exclusions
Please see Section 1.6 for terms that apply to all cancer-related conditions covered under this Policy.

Early-Stage Breast Cancer: Ductal Carcinoma in-Situ of the Breast or Lobular Carcinoma in-Situ of the Breast

Definition
A definite diagnosis of Ductal Carcinoma in-Situ of the Breast or Lobular Carcinoma in-Situ of the Breast.

The diagnosis of Early-Stage Breast Cancer: Ductal Carcinoma in-Situ of the Breast or Lobular Carcinoma in-Situ of the Breast must be made by a Specialist and must be confirmed by a final pathology report.

Waiting Period
There is no Waiting Period for this condition.

Exclusions
Please see Section 1.6 for terms that apply to all cancer-related conditions covered under this Policy.

Early-Stage Gastrointestinal Stromal Tumour (GIST)

Definition
A definite diagnosis of Gastrointestinal Stromal Tumour, classified as AJCC prognostic Stage 1 tumour.

The diagnosis of Early-Stage Gastrointestinal Stromal Tumour must be made by a Specialist and must be confirmed by a final pathology report.

For the purposes of this Policy:

- The term AJCC prognostic Stage 1 is as defined in the American Joint Committee on Cancer (AJCC) Staging Manual, 8th Edition, 2018.

Waiting Period
There is no Waiting Period for this condition.

Exclusions
Please see Section 1.6 for terms that apply to all cancer-related conditions covered under this Policy.

Early-Stage Malignant Melanoma

Definition
A definite diagnosis of Malignant Melanoma of the skin that is less than or equal to 1.0 mm in thickness, without ulceration, lymph node or distant metastasis.

The diagnosis of Early-Stage Malignant Melanoma must be made by a Specialist and must be confirmed by a final pathology report.

Waiting Period
There is no Waiting Period for this condition.

Exclusions
Please see Section 1.6 for terms that apply to all cancer-related conditions covered under this Policy.

Early-Stage Neuroendocrine Tumours (including carcinoid tumours)

Definition
A definite diagnosis of an Early-Stage Neuroendocrine Tumours classified as AJCC prognostic Stage 1 tumour.

The diagnosis of Early-Stage Neuroendocrine Tumours must be made by a Specialist and must be confirmed by a final pathology report.

For the purposes of this Policy:

- The term AJCC prognostic Stage 1 is as defined in the American Joint Committee on Cancer (AJCC) Staging Manual, 8th Edition, 2018.

Waiting Period
There is no Waiting Period for this condition.

Exclusions
Please see Section 1.6 for terms that apply to all cancer-related conditions covered under this Policy.

Early-Stage Papillary Thyroid Cancer or Follicular Thyroid Cancer

Definition
A definite diagnosis of Papillary Thyroid Cancer or Follicular Thyroid Cancer, or both, that is less than or equal to 2.0 cm in greatest diameter and classified as T1, without lymph node or distant metastasis.

The diagnosis of Early-Stage Papillary Thyroid Cancer or Follicular Thyroid Cancer must be made by a Specialist and must be confirmed by a final pathology report.

Waiting Period
There is no Waiting Period for this condition.

Exclusions
Please see Section 1.6 for terms that apply to all cancer-related conditions covered under this Policy.

Early-Stage Prostate Cancer

Definition
A definite diagnosis of Prostate Cancer that is either T1a or T1b tumour of the prostate, without lymph node or distant metastasis.

The diagnosis of stage T1a or T1b Prostate Cancer must be made by a Specialist and must be confirmed by a final pathology report.

For the purposes of this Policy:

- T1a or T1b prostate cancer means a clinically inapparent tumour that was not palpable on digital rectal examination and was incidentally found in resected prostatic tissue; and
- The terms T1a and T1b are as defined in the American Joint Committee on Cancer (AJCC) Staging Manual, 8th Edition, 2018.

Waiting Period
There is no Waiting Period for this condition.

Exclusions
Please see Section 1.6 for general conditions that apply to all cancer conditions covered under this Policy.

Early-Stage Prostate Cancer Treated with Radical Prostatectomy

Definition
The actual undergoing of a radical prostatectomy to totally remove the entire prostate gland for the diagnosis of Early-Stage Prostate Cancer which is defined as a T1a or T1b tumour of the prostate.

The surgery must be considered medically necessary, be supported by appropriate pathology reports and performed by a Specialist.

Waiting Period
There is no Waiting Period for this condition.

Exclusions
Please see Section 1.6 for general conditions that apply to all cancer conditions covered under this Policy.

No Early Condition Benefit will be payable under this condition for Early-Stage Prostate Cancer (T1a or T1b) treated by any other means other than radical prostatectomy.

Endovascular Aortic Surgery

Definition
The actual undergoing of a percutaneous trans-vascular, catheter-based procedure to repair or correct an aneurysm, narrowing, obstruction or dissection of the aorta. For the purposes of this definition, "aorta" means the thoracic and abdominal aorta, but not its branches.

The surgical procedure must be considered medically necessary, evidenced by appropriate investigations and performed by a Specialist.

Waiting Period
30 days following the date of your surgery.

Exclusions
None

Implantation of a Permanent Cardiac Pacemaker

Definition
The actual undergoing of the Implantation of a Permanent Cardiac Pacemaker for the treatment of electrical conduction system disease of the heart.

The procedure must be supported by appropriate investigations and be both deemed medically necessary and performed by a Specialist.

Waiting Period
30 days following the date of your surgery.

Exclusions
No Early Condition Benefit will be payable under this condition for:

- Implantation of a non-permanent cardiac pacemaker; or
- The use of a temporary cardiac pacemaker.

Implantation of a Permanent Implantable Cardioverter-Defibrillator (ICD)

Definition
The actual undergoing of the Implantation of a Permanent Implantable Cardioverter-Defibrillator (ICD).

This definition covers for two types of permanent implantable cardioverter-defibrillator (ICD) systems: the conventional transvenous implantable cardioverter-defibrillator (TV-ICD) and the subcutaneous implantable cardioverter-defibrillator (S-ICD).

The procedure must be supported by appropriate investigations and be both deemed medically necessary and performed by a Specialist.

In addition, based on the opinion of an expert electrophysiologist, there must have been the deployment of a permanent implantable cardioverter-defibrillator for one of the following reasons:

- Documented arrhythmias; or

- Presumed arrhythmogenic syncope; or
- As a primary prevention strategy where there is an expert view that the claimant is at a high risk of a lethal arrhythmia.

Waiting Period
30 days following the date of your surgery.

Exclusions
No Early Condition Benefit will be payable under this condition for:

- Implantation of a non-permanent implantable cardioverter-defibrillator (ICD);
- Use of a wearable (temporary) cardioverter-defibrillator.

No Early Condition Benefit will be payable under this condition if the Policyholder has received a payout for the Implantation of a Permanent Cardiac Pacemaker.

Primary Cutaneous Lymphoma

Definition
A definite diagnosis of primary cutaneous T-cell, NK-cell, or B-cell lymphoma which are confined to the skin (which includes the epidermis, dermis and hypodermis/subcutaneous tissue), without lymph node or distant metastasis.

The diagnosis of cutaneous lymphoma without distant metastasis must be made by a Specialist and must be confirmed by a final pathology report.

Waiting Period
There is no waiting period for this condition.

Exclusions
Please see Section 1.6 for terms that apply to all cancer-related conditions covered under this Policy.

1.6 Moratorium for cancer conditions

No Critical Illness Benefit or Early Condition Benefit will be paid under any cancer-related condition if, within the first 90 days following the later of, the Effective Date, or the date of the last Reinstatement of the Policy, the Policyholder has any of the following:

- Signs, symptoms, or investigations leading directly or indirectly to the diagnosis of any cancer (covered or not covered under the Policy), regardless of when the diagnosis is made; or
- A diagnosis of any cancer (covered or not covered under the Policy).

Medical information about the diagnosis and any signs, symptoms or investigations leading to the diagnosis must be reported to us within 6 months of the date of the diagnosis. If this information is not provided within this period, we have the right to deny any claim for any cancer condition or any Covered Critical Illness Condition or Covered Early Conditions caused by any cancer condition or its treatment.

1.7 How waiting periods work

We will only pay a Critical Illness Benefit or Early Condition Benefit if the Waiting Period for that Covered Critical Illness Condition or Covered Early Condition is met, as specified in Sections 1.4, 1.5 and 3.

1.8 Coverage outside of Canada

If the Policyholder is diagnosed with or undergoes surgery for a Covered Critical Illness Condition or Covered Early Condition outside of Canada, the Critical Illness Benefit and Early Condition Benefit will be payable if the Policyholder satisfies the following conditions in addition to satisfying all other terms and conditions outlined in this Policy:

- the Policyholder's complete medical records are made available to us; and
- based on these medical records, we are satisfied that:
    - the same diagnosis would have been made if the Covered Critical Illness Condition or Covered Early Condition had occurred in Canada;
    - the physician making the diagnosis was licensed to practice in the jurisdiction in which the diagnosis was made and had credentials equal to any defined for that condition in your Policy;
    - the diagnosis is fully supported by all appropriate tests and other investigations which would normally be completed in Canada or the United States (including those required by the specific definition of the Covered Critical Illness Condition or Covered Early Condition); and
    - the same surgery or medically necessary non-surgical interventional procedure would have been administered if treatment had taken place in Canada; and
- the Policyholder must undergo an independent medical examination by a physician appointed by us if we make such a request. In the case of elective surgery, such an examination must be undergone before surgery occurs.

1.9 How to claim any benefit listed in this Policy

To claim the Critical Illness Benefit or Early Condition Benefit, the Policyholder should contact the Administrator. The Policyholder will then be given instructions about the documents we require to enable us to adjudicate the claim.

The Policyholder shall submit a claim to the Administrator no later than 30 days from the date that the Policyholder meets all requirements of a Covered Critical Illness Condition or Covered Early Condition.

The benefits provided for in this Policy will be paid upon receipt of proof satisfactory to us. The Policyholder shall, within 90 days from the date a claim arises under this Policy, furnish such proof to the Administrator, as is reasonably possible in the circumstances, including:

- the cause, nature or duration of a Covered Critical Illness Condition or Covered Early Condition;
- the right of the claimant to receive payment;
- the claimant's age; and
- if required, a satisfactory certificate to the cause, nature or duration of the Covered Critical Illness Condition or Covered Early Condition.

Failure to give notice or proof

Failure to submit a claim or furnish proof for a claim within the time prescribed in this section does not invalidate the claim if:

- the claim submission is given as soon as reasonably possible, and in no event later than 1 year from the date the Policyholder meets all requirements for a Covered Critical Illness Condition or Covered Early Condition if it is shown that it was not reasonably possible within the time prescribed;
- the submission of proof for a claim is given as soon as reasonably possible and in no event later than 1 year from the date a claim arises under this Policy if it was shown that it was not reasonably possible within the time prescribed; or
- in the case of the death of the Policyholder, if a declaration of presumption of death is necessary, the claim submission or claim proof is given no later than 1 year after the date a court makes the declaration.

1.10 Converting your Policy

At any point before the fifth anniversary of the Effective Date, you can convert your Policy to a new policy with a longer available term length and the same Policy Coverage Amount, without providing Evidence of Insurability.

This means that:

- A 10-year policy can be converted to a new 15-year, 20-year, 25-year or 30-year policy;
- A 15-year policy can be converted to a new 20-year, 25-year or 30-year policy;
- A 20-year policy can be converted to a new 25-year or 30-year policy; or
- A 25-year policy can be converted to a new 30-year policy.

The premium of the new policy will be based on the Policyholder's age on the birthday closest to the day the new policy becomes in force, and the Premium Class or comparable risk category and underwriting decisions applicable to the original Policy. Any term length conversion will be subject to our rules regarding maximum Issue Ages.

1.11 Cancelling your Policy

If you are not satisfied with this Policy, you may cancel it at any time by submitting a Cancellation Request Form to the Administrator.

If you cancel within 30 days of the Effective Date, you will receive a full refund of any premiums you have paid.

If you cancel after this 30-day period, you will only receive a pro-rated refund of any premiums you have prepaid, if applicable. You will not be charged any cancellation fees or penalties.

1.12 Payment of premium

We determine the premium payable by you for this Policy based on the Policy Coverage Amount and term length you selected and your personal information. This information is shown on the coverage details page. We will not increase your premiums unless you make a change to your coverage.

All premiums due by the terms of this Policy shall be paid by the Policyholder in Canadian dollars on or prior to the day they are due.

You have the choice to pay your premiums annually or monthly .

If paying monthly, payments are due on the monthly payment date shown on your coverage details page.

If paying annually, payments are due on the anniversary of the Effective Date.

Payments will be made using the latest payment information that you have authorized the Administrator to charge on a recurring basis.

If at any time you wish to stop payments from being charged, you must notify the Administrator at least seven days prior to the day the next premium is due.

1.13 Grace period

Starting after your first premium payment, if a premium is not paid when due, this Policy shall be in default. We will allow a 30-day grace period to pay each premium, during which time this Policy stays in force. A notice will be sent to you at least 15 days prior to the expiration of the grace period. If your premium is not paid before the end of the grace period, this Policy shall automatically terminate. If you are diagnosed with a Covered Critical Illness Condition or Covered Early Condition during the grace period, any of your payable benefits, as applicable, will be reduced by the amount owing to us as of the date of your diagnosis.

2. General provisions

2.1 Entire contract

The Policy, the Application, and any endorsements and attachments form the entire contract of insurance. No agent has authority to change this Policy or waive any of its provisions. No change to this Policy will be valid unless approved by an officer of Securian Canada and such approval is endorsed hereon or attached hereto.

You or any claimant may request a copy of this Policy, the Application and any written Evidence of Insurability (other than confidential information exempted from disclosure by applicable law) by contacting the Administrator.

2.2 Contestability

You have an obligation to disclose every fact that might influence our decision to issue or reinstate this Policy or influence its terms (a Material Fact). The information we rely on from you includes anything you provide in the Application and any other Evidence of Insurability. We use this information to make our decision and we have the right to contest the validity of this Policy and deny any claim if you misrepresent or fail to disclose a Material Fact.

All statements made in your Application and any other Evidence of Insurability will be deemed representations and not warranties. No statement will be used to void this Policy or be used in defense of a claim unless it is contained in your Application or any other Evidence of Insurability.

We will not contest this Policy after it has been in force during your lifetime for two years from the Effective Date or the most recent Effective Date of Reinstatement, except for fraud, ineligibility due to misstatement of age, or if you do not pay premiums.

2.3 Misstatement of date of birth or gender

If your date of birth or gender at birth has been misstated, your Critical Illness Benefit or Early Condition Benefit will be adjusted to the amount that would have been provided for the premiums paid based on your correct age or gender at birth. If you would have been ineligible for coverage had the correct information been provided in your Application at the time coverage became effective, this Policy is void and we will return all of the premiums paid.

2.4 Reinstatement

This Policy may be put back in force after it has been terminated if all of the following requirements are met:

1. you have not been diagnosed with a Covered Critical Illness Condition or Covered Early Condition during the period that this Policy was terminated;
2. a Request for Reinstatement has been submitted within two years of the date this Policy was terminated;
3. the term length of your Policy has not yet expired;
4. Evidence of Insurability is acceptable to us;
5. all past due premiums are paid; and
6. interest is paid by you on all past due premiums at the then applicable prime rate posted by the Bank of Canada (not to exceed six percent per annum).

You can obtain a Request for Reinstatement Form by contacting the Administrator.

The two-year incontestability period described in Section 2.2 – *Contestability* will restart on the most recent Effective Date of Reinstatement.

2.5 Legal action

Every action or proceeding against an insurer for the recovery of insurance money payable under the contract is absolutely barred unless commenced within the time set out in the Insurance Act (for actions or proceedings governed by the laws of Alberta and British Columbia), The Insurance Act (for actions or proceedings governed by the laws of Manitoba), the Limitations Act, 2002 (for actions or proceedings governed by the laws of Ontario), or in other applicable legislation. For those actions or proceedings involving residents of Saskatchewan, New Brunswick, Nova Scotia, Newfoundland, P.E.I., Yukon, Northwest Territories and Nunavut: No legal action may be brought against Securian Canada unless it is brought within the longer of: (a) 12 months from the date you are notified in writing that no benefits are payable; or (b) the shortest applicable limit of time established by law in the province in which you reside.

If any time limitation specified is less than that permitted by the law of the province or territory in which you reside at the time of the Effective Date, then the time limitation will not be less than that provided for by such provincial or territorial law.

2.6 Waiver

We shall not be deemed to have waived any term or condition of this Policy either in whole or in part, unless the waiver is clearly expressed in writing and signed by us.

2.7 Policy not assignable

Neither this Policy, nor any of your rights or interests under this Policy, are assignable, in whole or in part, to any person.

2.8 Governing laws

This Policy shall be governed by and interpreted in accordance with the laws of the province or territory of your residence on the Effective Date. Any terms of this Policy which are in conflict with the requirements of such laws are amended to conform to the minimum requirements thereof.

2.9 Changes to administrative rules

We may change the Administrator for this Policy and our administrative rules (such as how your premium is collected) from time to time. You will be notified of any such changes and they will not affect the amount of your Critical Illness Benefit or Early Condition Benefit provided by this Policy.

2.10 Complaints

To obtain information about how to make a complaint and our complaints handling process, please contact the Administrator.

2.11 Communication methods

You agree that all communications made pursuant to this Policy, including all notices and documents that we or the Administrator are required to provide under applicable law, will be exchanged through email, downloads available through a link to a website that we provide, or via any other electronic means existing now or in the future and that these electronic communications are the legal equivalent of paper documents. You also agree that the electronic consents associated with the electronic documents that we and the Administrator exchange with you authenticate those documents and are the legal equivalent of manual signatures.

2.12 Contact information

Any requirement outlined in this Policy to submit a form or provide a notification, should be completed by contacting the Administrator at the email address or phone number below.

Administrator

PolicyMe Corp.
servicing@policyme.com
1 (866) 999-7457
www.policyme.com

3. Definitions

Administrator

PolicyMe Corp., or its replacement designated by Securian Canada, who provides administrative services on behalf of Securian Canada for this Policy.

Application

The set of personal information the Policyholder provided when applying for this Policy. It is a combination of the initial set of information provided and any modifications made to that information on or before the Effective Date, and on or before any Effective Date of Reinstatement, if applicable.

Critical Illness Benefit

The total amount payable by us to the Policyholder upon being diagnosed with or having surgery for any of the Covered Critical Illness Conditions listed in Section 1.4 while this Policy is in force subject to all the terms of this policy and having satisfied the Waiting Period for the Covered Critical Illness Condition.

Covered Critical Illness Condition

A medical condition listed in Section 1.4 where, if all conditions of this Policy are met, the Critical Illness Benefit is payable.

Covered Early Condition

A medical condition listed in Section 1.5 where, if all conditions of this Policy are met, the Early Condition Benefit is payable.

Early Condition Benefit

A benefit that allows the Policyholder to receive a portion of the Policy Coverage Amount upon being diagnosed with or having surgery for any of the Early Intervention Conditions listed in Section 1.5 while this Policy is in force subject to all the terms of this policy and having satisfied the Waiting Period for the Covered Early Condition.

Effective Date

The date insurance coverage begins, as shown on your coverage details page, provided all of the requirements described in Section 1.1 – *When your coverage begins* are met, and the Policyholder is alive on that date.

Effective Date of Reinstatement

The date coverage resumes, after this Policy has been terminated and reinstated in accordance with Section 2.4 – *Reinstatement*.

Evidence of Insurability

Any information that we require to decide if the Policyholder is insurable, and if so, on what terms.

Expiration Date

The day the insurance coverage ends, as shown on your coverage details page, provided the coverage has not already ended for any reason as outlined in Section 1.2 – *When your coverage ends*.

Issue Age

The age of the Policyholder on their birthday nearest the Effective Date. This could be older than the Policyholder's current age.

Material Fact

A fact that, if disclosed by the Policyholder, would have influenced our decision to issue or reinstate this Policy or would have influenced the terms on which this Policy was issued or reinstated.

Neurological Deficits

For purposes of this Policy, Neurological Deficits must be detectable by the Specialist and may include, but are not restricted to, measurable loss of hearing, measurable loss of vision, measurable changes in neuro-cognitive function, objective loss of sensation, paralysis, localized weakness, dysarthria (difficulty with pronunciation), dysphasia (difficulty with speech), dysphagia (difficulty swallowing), impaired gait (difficulty walking), difficulty with balance, lack of coordination, or new-onset seizures undergoing treatment. Headache or fatigue will not be considered a Neurological Deficit.

Policy Coverage Amount

The amount shown on your coverage details page as the Policy Coverage Amount.

Policyholder

The holder of this Policy, as shown on your coverage details page.

Premium Class

The broad rating category we use to determine the applicable premiums for insurance coverage for a Policyholder.

Securian Canada

Securian Canada is the brand name used by Canadian Premier Life Insurance Company, 1400-25 Sheppard Avenue West, Toronto, ON, M2N 6S6, the insurance company that underwrites this Policy and pays any applicable Critical Illness Benefit or Early Condition Benefit.

Specialist

A Specialist is a licensed medical practitioner who has been trained in the specific area of medicine relevant to the Covered Critical Illness Condition or Covered Early Condition for which benefit is being claimed, and who has been certified by a specialty examining board. In the absence or unavailability of a Specialist, and as approved by the insurer, a condition may be diagnosed by a qualified medical practitioner practicing in Canada or the United States of America.

Specialist includes, but is not limited to, cardiologist, neurologist, nephrologist, oncologist, ophthalmologist, burn specialist and internist. The Specialist must not be the Policyholder, or a relative of or business associate of the Policyholder.

Any tests or examinations that must be performed in order to satisfy the condition requirements must be conducted by a medical professional who is not the Policyholder, a relative of or business associate of the policy owner or of the insured.

Waiting Period

Period, typically in days, the Policyholder needs to survive after the date of diagnosis or surgery of a Covered Critical Illness Condition or Covered Early Condition to become eligible for a payout. If the Policyholder is placed on artificial life support, we will consider the date that person is no longer living to be the date the Policyholder experiences irreversible cessation of all functions of the entire brain (including brain stem) as determined by generally accepted medical criteria.
